

Garbage Collection Calendar

Fill in the garbage collection days of your area and affix this poster where it can be easily seen. Please keep the booklet and don't throw it away.

Household garbage

Toyota Region

How to sort out and dispose of your garbage & recyclables

Post this bill

Garbage Classification App see P.15.

Mascot Character 'Risa'

Points to reduce waste

Let's reduce Food Waste!

※Food that is still good for consumption but is discarded. Let's check inside the refrigerator before going to the grocery shopping, and just buy necessary amount of foods. Buying excessive food is the main cause for the food waste!

Tips

20% of edible food is discarded as Burnable garbage.

Plastic containers & packaging

Disposal site

Selective Garbage Collection Station

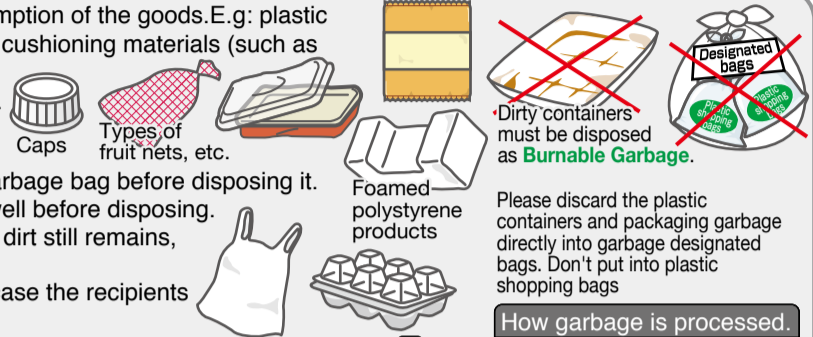

Each week

(day of week)

Plastic containers, packages and wrappings that cannot be used after the consumption of the goods. E.g: plastic recipients & cups, plastic bags, polythene bags, netting/mesh bags, plastic films, cushioning materials (such as polystyrene, etc), foodstuff trays and plates, bottle's cap and plastic label, etc.
*For more details, please consult the pamphlet "Plastic containers & packaging".

Ways of disposing the garbage

- Put them in the appropriate garbage bag (written in black letters). Tie up the garbage bag before disposing it.
- If dirt remains, please rinse the containers under running water and dry them well before disposing.
- When a recipient cannot be easily cleaned or after rinsing under running water dirt still remains, please dispose it as "burnable waste".
- Containers & recipients with the mark are considered plastic waste. In case the recipients does not show the mark , dispose them as "burnable garbage".
- ※ Spray cans with the announcement 「火気と高温に注意」 must be discarded as **dangerous garbage** even if they have the mark .
- ※ Products made out of just plastic can be thrown as the Burnable garbage.

How garbage is processed. It is recycled and used as the raw material for plastic products.

Recyclable resources

Disposal site

Recyclable materials' collection station

Put the garbage directly in the designated baskets or collection bags. There is no designated bag.

Every month

(day of week)

Recyclable materials are collected and reutilized.

Glass Bottles

Bottles for sake, beer, and others (sea weed, soft drinks, medicines, cooking oil, jam, whiskey, etc.), and cosmetic bottles

Ways of disposing the garbage

- Remove the bottles' caps and dispose them as "metal garbage" when they are made of metal or as "plastic garbage" when they are made of plastic.
- Empty the bottle and rinse it.
- Broken bottles should be disposed as "landfill garbage".
- If labels and caps are undetachable please discard them as they are.
- Bottles of cooking oil, etc., even if they are stained, should be disposed as "recyclable resources".
- For cosmetic bottles, remove cap, inside plug, pump and the like.
- Milky white cosmetic bottles should be disposed as "landfill garbage".

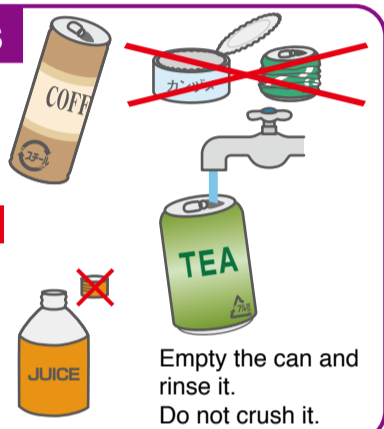

Beverage cans

Steel or aluminium cans containing juice, soft drink, beer and other beverages.

Ways of disposing the garbage

- Dispose metallic caps as "metal garbage".
- ※ Dispose food cans, pet food cans and crushed cans as "metal garbage".

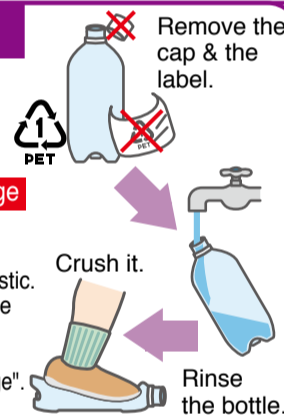

PET bottles.

Plastic bottles and containers for beverages, liquor, cooking seasonings (mirin), that have the following mark

Ways of disposing the garbage

- Remove the caps & labels and dispose them as "plastic garbage" if they are made of plastic.
- Empty, rinse and crush the bottle before disposing it.
- Shredded pet bottles should be discarded as "burnable garbage".

Hazardous waste

Fluorescent lamps (not broken ones) Batteries Clinical thermometers (mercury) Portable charger

Ways of disposing the garbage

- Dispose fluorescent lamps and thermometers without breaking them. ("Landfill garbage" if broken)
- When discarding mercury thermometers or hemadynamometers put it in the original protection case or a sealed package.
- ※ LED fluorescent lamp and LED lightbulbs should be discarded as **Metal Garbage**.
- ※ Light bulbs and broken fluorescent lamps should be discarded as **Landfill garbage**.

Dangerous waste

Gas lighter Spray can

Ways of disposing the garbage

 See P.1.

- Empty it completely.
- Punching a hole on spray cans and gas cartridges is unnecessary before disposing them.
- ※ Carbon dioxide gas cartridge should be discarded as **metal garbage**.

Burnable garbage

Disposal site

Selective Garbage Collection Station

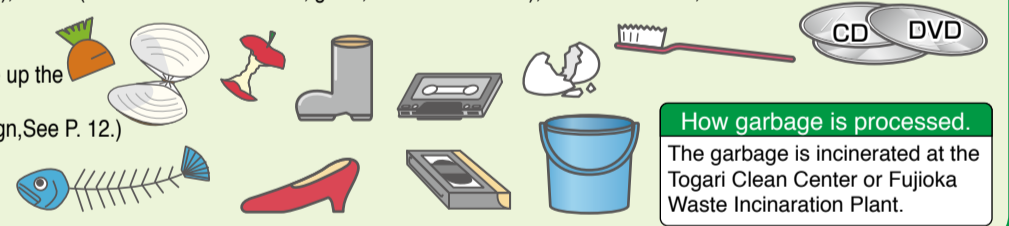

Each week

(day of week)

Raw garbage (food scraps, kitchen waste), disposable diapers, tissue paper, leather goods (handbags, belts, etc.), goods made entirely of plastic (wash bowls, planters, CDs, tooth brushes, etc.), tapes (videotapes, cassette tapes, etc.), ashes (should not contain metal, glass, or other residuals), shoes and boots, etc.

Ways of disposing the garbage

- Put them in the appropriate garbage bag (written in green letters). Tie up the garbage bag before disposing it.
- Drain off excess water from food leftovers. (Wring out moisture campaign, See P. 12.)
- Flush dirt from disposable diaper and artificial anus down the toilet.
- Soak up cooking oil[※] in paper or fabric.
- ※ It is collected at the designated recycling stations (See P.5.)

How garbage is processed. The garbage is incinerated at the Togari Clean Center or Fujioka Waste Incineration Plant.

Metal garbage

Disposal site

Selective Garbage Collection Station

Every month

Wed (day of week)

Metal products (except spray cans, tapes such as video tapes and cassette tapes, and extinguishers), cans other than beverage cans, electrical appliances (excluding the 4 types of domestic electrical appliances, personal computers, and fire extinguishers), aluminum foil, and composite products made of metal and plastics, LED lamps, Electronic thermometer, Electronic blood pressure monitor etc.

Ways of disposing the garbage

- Put them in the appropriate garbage bag (written in blue letters). Tie up the garbage bag before disposing it.
- Wrap sharp objects such as knives in paper.

How garbage is processed. The garbage is crushed, metal parts are recycled and reused as materials for construction or other metal products.

Landfill garbage

Disposal site

Selective Garbage Collection Station

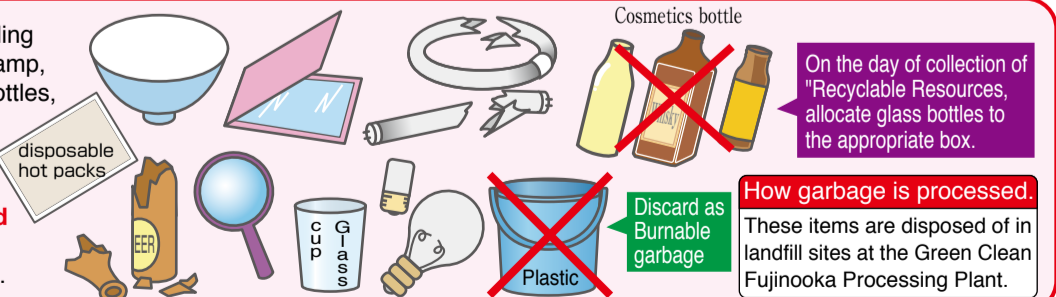

Every month

Wed (day of week)

Glass & ceramic goods in general, Glass products (excluding beverage bottles and cosmetic bottles), light bulbs, glow lamp, LED bulbs, broken fluorescent light tubes, broken glass bottles, hand mirror, magnifying glass, disposable hot packs, etc.

Ways of disposing the garbage

- Put them in the appropriate garbage bag (written in red letters). Tie up the garbage bag before disposing it.
- Wrap broken glasses securely in paper to avoid injuries.

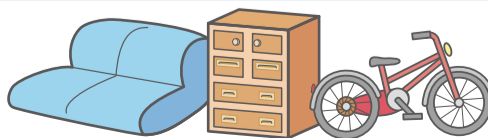

On the day of collection of "Recyclable Resources, allocate glass bottles to the appropriate box.

How garbage is processed. These items are disposed of in landfill sites at the Green Clean Fujinooka Processing Plant.

Bulky garbage (charged)

Large items such as furniture, bicycles, etc, that cannot fit into specified garbage bags.

Ways of disposing the garbage

- How to take out the bulky garbage (two ways: both fee-based services)
- ① Ask to be collected in front of your home (Reference on P.3)
 - ② Sort out by yourself and bring each type of garbage to the respective waste processing facility (For more details P.4).

※ Put your garbage out by 8:30 am on the day of collection, at the specified location. Please refer to the reverse side for opening hours during the holiday season (Year-end/New Year holidays)

※ Garbage and refuse generated by commercial or industrial activities (shops, restaurants, offices, etc.) cannot be disposed at the Garbage selective collection stations. For disposal, you must contact a licensed garbage collection company or transport them by yourself.

Recycles and Garbage Collection Days by Area

– Collection is carried out on public holidays as usual (excluding the New Year's holidays). –

About Year-End and New Year Holiday waste collection

Waste collection for Year-End and New Year Holiday will run on an irregular schedule

Check the waste type and collection service schedule for Year-End and New Year Holiday on Toyota City's website, or waste and recyclables separation app (ThreeR)

Feel free to contact us if you don't know the name of the neighborhood board you live in. Contact: Environment Department - Waste Reduction Promotion Division, phone: 71-3001.
