Percentage of students who, to improve classroom life, discuss in class meetings and decide on solutions by leveraging the merits of each other's opinions.	①83.6% ②86.1%	↑

Summary Version

The 5th Toyota City Educational Administration Plan 2026-2030

Basic Philosophy

Forging a rich and fulfilling life, true to oneself, through mutual learning and connections.

The Ideal Vision for Learning

Value oneself and respect others.

Everyone learns joyfully and securely throughout their lives.

Share the diverse attractions of Toyota City, learn through connections, and grow together with the community.

Think and act independently, and together forge a new future.

Forging a rich and fulfilling life, true to oneself, through mutual learning and connections.

Education in Toyota City

Toyota City will steadily advance educational initiatives, valuing the perspectives of being "child-centered" and fostering "mutual connectedness," to enable everyone to forge a rich and fulfilling life, true to themselves.

Key Projects in Schools

We will promote "inquiry-based learning" in collaboration with the community to cultivate in each child the "ability to think and make decisions independently," as they develop their own insights and ideas, connect with people and society, and learn enthusiastically with their peers.

The Plan's Eight Key Initiatives
